# About the Women's Sports Foundation

---

Founded in 1974 by Billie Jean King, the Women's Sports Foundation is a national charitable educational organization seeking to advance the lives of girls and women through sports and physical activity. The Foundation's Participation, Education, Advocacy, Research and Leadership programs are made possible by gifts from individuals, foundations and corporations. The Foundation is located in Nassau County, N.Y. For more information, please call the Foundation at (800) 227-3988 or visit [www.WomensSportsFoundation.org](http://www.WomensSportsFoundation.org). The Foundation serves as a center for collecting and sharing information on girls and women in sports and physical activity. The Women's Sports Foundation also produces academic research on the psychological, social and physiological dimensions of sport and physical activity in the lives of girls and women.

This educational publication is made possible by the support of our members and donors. The Women's Sports Foundation is a 501(c)(3) nonprofit organization. Donations to the Foundation are tax-deductible to the full extent of the law. Please give generously to support our mission and activities.

## Authorship and Acknowledgments

---

This report was authored by John Cheslock, Ph.D., of the Center for the Study of Higher Education, University of Arizona. We thank the members of the expert advisory panel: Christine Grant, Ph.D.; Nancy Hogshead, J.D.; Donna Lopiano, Ph.D.; Don Sabo, Ph.D.; Jocelyn Samuels, J.D.; Ken Shropshire, J.D.; Deborah Slaner Larkin; C. Vivian Stringer; Susan Ware, Ph.D.; Andrew Zimbalist, Ph.D.; and Connee Zotos. We also thank Deborah Anderson for her helpful comments and Xin Liu, Hasem Miyaji, Cody Nicholls and Michael Simpson for their assistance with data collection. Women's Sports Foundation personnel assisting with the report were Marjorie A. Snyder, Ph.D., Terri Lakowski, Melanie Bennett, Marcia Lockamy, Alison Biggs and Deana Monahan. The Women's Sports Foundation also thanks Kelley Cornish and Deborah Slaner Larkin for their ongoing commitment to the Foundation's public policy work and its national sponsors, Advanta and Gatorade, for their year-round support.

This report is the first in a series of three gender equity reports. The second report will examine which factors influence intercollegiate participation changes, with a special focus on Title IX, spending on men's basketball and football, and changing preferences for less prominent men's sports. It is scheduled for release in January 2008. The third report will examine how the racial and ethnic composition of intercollegiate athletes has changed over time. It is scheduled for release in June 2008.

# How Are Colleges and Universities Doing? Grading Participation, Documenting Expansion

This is a supplement to *Who's Playing College Sports? Trends in Participation*, which enables readers to evaluate and compare each higher education institution's performance in relation to its peers. This information can also be found online at [www.WomensSportsFoundation.org](http://www.WomensSportsFoundation.org), sorted by state (as it appears here), by organizational and division affiliation, alphabetically by institution name, and by grade. Conference-level averages for all figures are also provided online to allow for additional comparisons.

This component of the study does not provide a comprehensive analysis of gender equity at each institution nor does it seek to determine whether institutions are currently in compliance with Title IX. But it does report figures that contain substantial insight into an institution's commitment to women's athletics. We present the female share of undergraduates and the female share of athletes for each institution to examine whether the gender composition of an institution's athletes is similar to the gender composition of its student body. To identify institutions of higher education that recently expanded their women's athletic program, we also list the change in the number of women's participants for each institution between 2001-02 and 2004-05. For the 738 institutions in our 10-year NCAA sample, we also report changes in participation for the 1995-96 to 2001-02 period.

To identify those higher education institutions that have a female share of athletes similar to their female share of undergraduates, we report the proportionality gap for each institution. This gap equals the percentage of undergraduates that are female minus the percentage of athletes that are female. To help provide meaning to an institution's proportionality gap, we assign grades. Table 12 from the full report, reproduced at right, outlines the grading criteria, which assigns the lowest grades to those institutions at which female athletes are substantially underrepresented. To recognize their contribution towards alleviating the current underrepresentation of female athletes in the aggregate, institutions are not assigned a low grade when female athletes are overrepresented.

Table 13 from the full report, reproduced at right, presents proportionality gap grades for each athletic organization and NCAA division; it also provides the data used to compute the grade. For example, the average NCAA institution had a female share of undergraduates of 55.8% and a female share of athletes of 42.8% in 2004-05, which results in a proportionality gap of 13 percentage points and a grade of C. Among organizations, the NCCAA earned the highest grade, while within the NCAA, Divisions I-A and I-AAA earned the highest grades. In contrast, the NJCAA, COA and NCAA Division II received the worst grades.

**Table 12: Interpreting the Proportionality Gap Report Card**

Rank Order	Grade
Proportionality gap* is:	
2 percentage points or less	A
above 2 but no more than 4 percentage points	A-
above 4 but no more than 6 percentage points	B+
above 6 but no more than 8 percentage points	B
above 8 but no more than 10 percentage points	B-
above 10 but no more than 12 percentage points	C+
above 12 but no more than 14 percentage points	C
above 14 but no more than 16 percentage points	C-
above 16 but no more than 18 percentage points	D+
above 18 but no more than 20 percentage points	D
above 20 but no more than 22 percentage points	D-
above 22 percentage points	F

\* The proportionality gap equals an institution's female share of undergraduates minus the institution's female share of athletes.

**Table 13: Proportionality Gap Grades by Affiliation**

Affiliation/Division*	Prop Gap.	Grade	% Und., Fem.	% Ath. Fem.	# Inst.
NCAA	13.0	C	55.8%	42.8%	964
Div. I	9.5	B-	54.4%	44.9%	321
Div. I-A	7.2	B	51.7%	44.5%	113
Div. I-AA	13.2	C	54.6%	41.4%	113
Div. I-AAA	7.9	B	58.0%	50.1%	83
Div. II	16.2	D+	57.4%	41.2%	261
Div. III	13.9	C	56.0%	42.2%	375
NAIA	15.9	C-	57.6%	41.6%	239
NCCAA	6.9	B	49.3%	42.4%	41
NJCAA	16.3	D+	56.1%	39.8%	431
COA	19.4	D	55.4%	36.0%	95
NWAAC	9.5	B-	54.8%	45.3%	32

\* NCAA refers to the National Collegiate Athletic Association; NAIA refers to the National Association of Intercollegiate Athletics; NCCAA refers to the National Christian College Athletic Association; NJCAA refers to the National Junior College Athletic Association; COA refers to the California Community College Commission on Athletics; NWAAC refers to the Northwest Athletic Association of Community Colleges.

The online portion of this report also describes changes in the number of female participants over recent years for each institution of higher education. To provide additional context, we report similar figures for men. Note that changes in cross country and track and field participants are not included in these figures, because participation data for these sports contain substantial error due to changes in the EADA reporting form. As described in Appendix C of the full report, however, we were able to obtain much more reliable information on whether or not an institution offers these sports. Consequently, we report changes in the number of cross country and track and field teams to complement the participation numbers for other sports.

## Reading the Table

Due to space constraints, several abbreviations are used in the data for each higher education institution.

<b>Abbreviation</b>	<b>Full Variable Name</b>
Org./Div.	Organizational and Division Affiliation
Name	Institution's Name
Amount	Proportionality Gap (% Und, Fem - % Ath, Fem)
Grade	Proportionality Gap Grade
% Und, Fem	% Full-Time Undergraduates, Female
% Ath, Fem	% Athletes, Female
# Ath, Fem	Number of Female Athletes
# Ath, Male	Number of Male Athletes
Part Chg	Change in Number of Participants (for sports other than Cross Country and Track & Field)
CC/T&F Tms	Change in the Number of Teams (for Cross-Country and Track & Field)
<b>Organization/Division Indicators</b>	
I-A	National College Athletic Association Division I-A
I-AA	National College Athletic Association Division I-AA
I-AAA	National College Athletic Association Division I-AAA
II	National College Athletic Association Division II
III	National College Athletic Association Division III
NAIA	National Association of Intercollegiate Athletics
NCCAA	National Christian College Athletic Association
NJCAA	National Junior College Athletic Association
COA	California Community College Commission on Athletics
NWAAC	Northwest Athletic Association of Community Colleges
Other	All Other Institutions
<b>Notes:</b>	
1. All estimates are based on Equity in Athletics Disclosure Act (EADA) data. [Available at <a href="http://ope.ed.gov/athletics/">http://ope.ed.gov/athletics/</a> ]	
2. All proportionality gap data are from the 2004/05 academic year (including the organization/division information).
