WELCOME

On behalf of Billie Jean King, Ilana Kloss and the Board of Trustees of the Women's Sports Foundation (WSF), we are proud to welcome you to our 2025 Annual Salute to Women in Sports – the premier celebration of women's sports since 1980.

Each year, we bring together athletes, industry leaders, team owners, leagues and brands to honor the transformative power of sport and to spotlight WSF's ongoing commitment to equality in sport and life. Tonight, it is our honor to celebrate Michele Kang, Herb Simon, Alysia Montaña and Diana Flores for their trailblazing leadership, vision and courage. Each has expanded opportunity, elevated women's sports and inspired future generations in extraordinary ways.

We also proudly recognize our first-ever Sports Culture Spotlight, honoring TOGETHXR for powerfully amplifying women's stories at the intersection of sports, lifestyle, activism and culture, and our Community Spotlight, Turnstone, for breaking down barriers for athletes with disabilities.

What Billie Jean began in 1974 with a \$5,000 check has grown into a movement that has invested over \$115 million to empower girls and women to play, compete and lead. We are proud of five decades of impact, but we also know there is urgent work ahead. That is why WSF continues to fight for equality, protect Title IX, invest in groundbreaking research and drive systemic change across the women's sports ecosystem.

Our work and impact would not be possible without the exceptional support of our National Partners, corporate supporters, athletes, fellow advocates, generous individuals, and of course, our Board of Trustees and Trustees Emeriti who have made our 2025 Annual Salute another financial success. Your support is vital to the research, advocacy, community grantmaking and programs that are helping more girls and women thrive – in sport, in classrooms, in workplaces and in communities.

For more than 50 years, the Women's Sports Foundation has changed the game. With your continued support, the next 50 years will change the world.
